# Results Supplement for the First Quarter of the Fiscal Year Ending March 2025

August 8 2024

Japan Elevator Service Holdings Co., Ltd.

(TSE Prime Market: 6544)

Three Months Results for the Fiscal Year Ending Mar 2025

Fiscal Year Ending March 2025 Forecasts

Three Months Results for FY Mar 2025

# A good start as both the number of maintenance contracts and modernization shipments continued to increase

- The number of maintenance contracts in Japan was 104,670 units. Net increase of 4,440 units was the highest quarterly organic net increase
- Strong demand drove the number of modernization shipment to 530 units, up 100 units YoY
- The number of offices increased to 144 (as of August 1). The Company aims to expand its market share in the Chugoku and Kyushu regions by opening sales offices in Yamaguchi and Saga

# Sales up by 21.6% YoY in line with annual expectation with maintenance and repair sales increased at a high level due to a recovery in the volume of repair work

- Sales of maintenance services continue to grow steadily as the number of maintenance contracts increases
- With the normalization of the supply of genuine parts, the volume of repair work has recovered throughout the previous year, and achieved significant YoY growth in the quarter
- Demand for modernization remained strong with sales up 28.9% YoY

### Three Months Results for FY Mar 2025 (Overview)

### Achieved record highs in both sales and profits, in line with the forecast announced on May 13

- The increase of net sales was due to higher maintenance sales resulting from an increase in the number of maintenance contracts, as well as a high level of repair and modernization sales
- The operating margin hit a record high of 16.7% driven by a decline in personnel expenses as a percentage of net sales and SG&A cost containment
- As a result, operating profit and other profit indicators increased approximately 50% YoY

## FY Mar 2025 Financial Forecasts

### FY2025 Financial Forecasts (Summary)

### Expect record sales and profits on the back of stable growth in maintenance and repair, and a strong modernization business

- Stable growth in maintenance services due to strong net increase in contracts, and repair services also on track for stable growth after sharp increase in the previous year. Modernization services is also expected to grow in terms of volume and unit price, backed by strong demand, and as JIK is now operational
- Operating profit margin should continue to improve and reach a record high due to CoGS and SG&A cost controls
- Progress in the first quarter in line with the initial forecast, therefore no change to forecast disclosed on May 13

### **Capital Expenditures and Depreciation**

## References

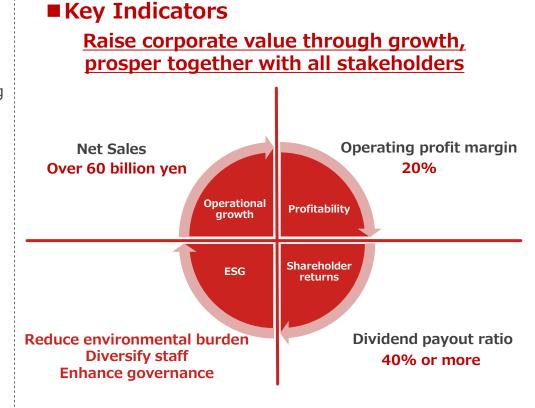

### Basic Strategy

 As a company qualified for the TSE Prime Market, we aim to achieve sustainable growth and increase corporate value, adapting to changes in the social environment, by addressing not only business growth but also social and global environmental issues from a medium- to long-term perspective

### ■ Growth Strategy

- Grow maintenance and repair services sales driven by expanded domestic market share (organic & M&A)
- Tap demand for modernization through increase in number of elevators under contract
  - => Net sales of 60 billion yen
- Improve profitability by enhancing business productivity and operational efficiency through human resource development and the use of digital technology
  - => Operating margin of 20% (before amortization)

- Growth and profitability metrics to be met by FY2027/3
- OP Margin excludes goodwill amortization

# Reconciliation of 60 billion yen in Net Sales and Operating Margin of 20% with Growing Maintenance Contracts

### Achieve net sales of 60 billion yen by expanding the market and increasing share in Japan

- As of March 31, 2024, our domestic maintenance market share will be approximately 9% (our estimate)
- There is ample room to expand market share, especially in newly penetrated areas, by leveraging our high-quality, reasonably priced services, and we will expand our maintenance sales system and personnel to capture new customers
- Sales expansion by capturing modernization demand due to increase in number of units

# 2. Improve operating profit margins through higher productivity

- Increase contribution from high margin maintenance sales
   Improve margins in newly expanded areas with low market share by increasing the number of maintenance contracts
- Reduction in CoGS ratio

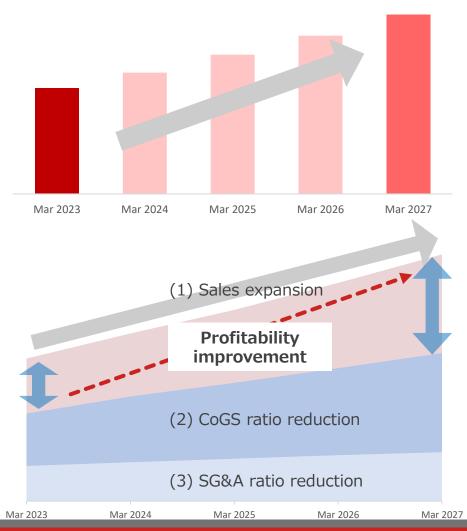

Despite our continued effort to increase the number of technical personnel, costs should be under controll since we are hiring new graduates and training them

Improve the number of units managed by technical personnel Curbing material costs by utilizing refurbished products

Reduction in SG&A ratio

Reduce administrative costs by optimizing staffing and utilizing IT systems

Increased number of maintenance contracts should improve profit step by step and lead to operating profit margin of 20%

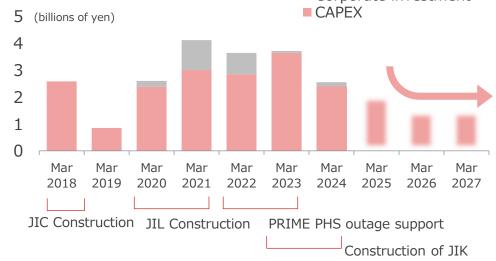

# Capital Expenditures Peaking and Positive FCF Trend Expected The Company Aims for a Strong Balance Sheet

### Trends in EBITDA, free cash flow, and growth investment

(Note) Corporate investment represents capital spending for the acquisition of subsidiaries.

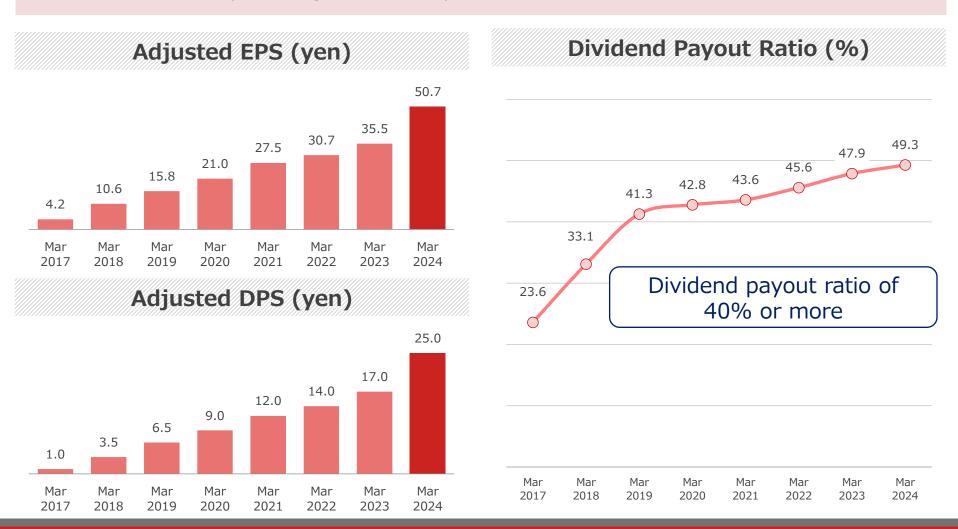

- Capital expenditures peaked in FY2023, and after the completion of the JIK in FY2024, CAPEX shall be limited to installation of PRIME and LiftSPOT terminals as contract increases, and system investments and R&D
- M&A considered only as opportunities arise

EBITDA and free cash flow expected to trend upward in parallel going forward

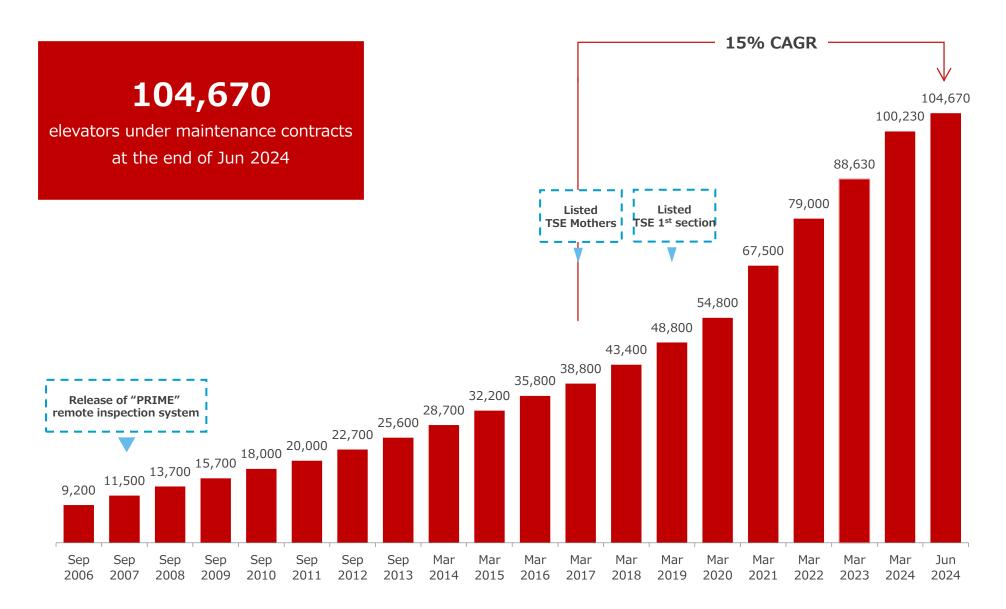

- Investment in human capital as an investment for growth
- Repayment of long-term borrowings
- Maintain a dividend payout ratio of over 40% for shareholder returns
- Considering share buybacks when the time is right

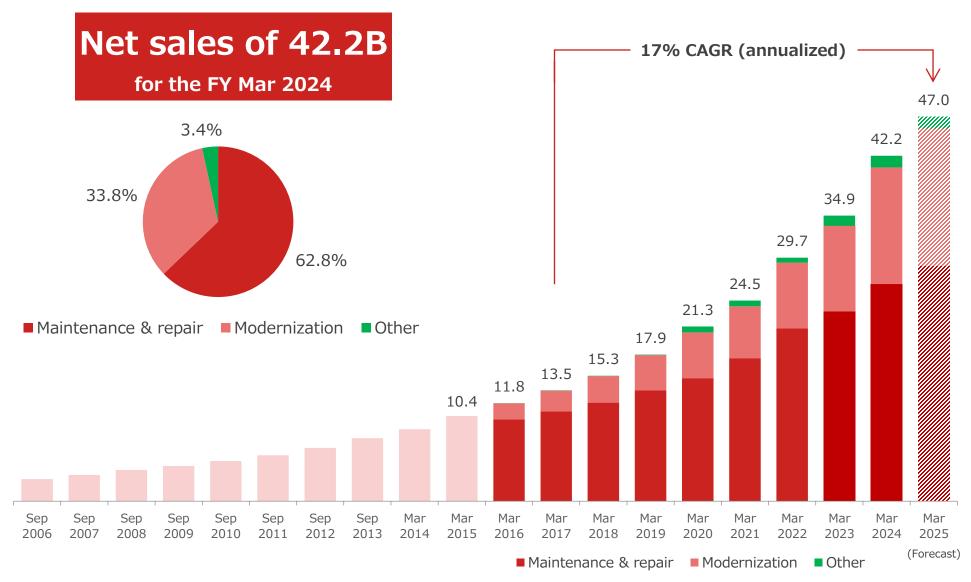

- Our shareholder return policy is based on a dividend payout ratio of at least 40% and aims for stable increases in EPS and DPS
- Dividend for the fiscal year was 25 yen (payout ratio 49.3%), an increase of 8 yen YoY
- Dividend for the fiscal year ending March 2025 is yet to be determined

(Note: Due to a change in the fiscal year end, the fiscal year ended March 31, 2014 is a six-month period. The above figures are annualized.
