Notice of Revision to the Dividend Forecast

Japan Elevator Service Holdings Co., Ltd. (the "Company") announces that its Board of Directors resolved at a meeting held today to revise the year-end dividend forecast for the fiscal year ending March 31, 2027 as detailed below.

1. Reasons for the revision

The Company recognizes that returning profits to shareholders is one of its most important management policies, and its basic policy is to maintain stable dividends while securing the internal reserves necessary to strengthen its management base in response to changes in the business environment and for future business development.

In accordance with its medium-term management plan "VISION2027," which commenced in the fiscal year ended March 31, 2023, the Company has been implementing various initiatives aimed at driving business growth, improving profitability, and enhancing corporate value. As a result of these efforts, the Company expects to achieve the key management targets set forth in the plan for the fiscal year ending March 31, 2027, the final year of VISION2027.

In addition, March 2027 will mark the 10th anniversary of the Company's stock exchange listing in March 2017.

Throughout the period covered by the medium-term management plan, the Company has achieved steady earnings growth while expanding its earnings base and strengthening its financial position. As a result, free cash flow has increased, enabling the Company to establish a solid financial foundation that supports sustainable growth and enhanced shareholder returns.

The Company recognizes that this growth has been made possible by the continued support of its shareholders. In light of the anticipated achievement of the medium-term management plan and the upcoming 10th anniversary of its stock exchange listing, the Company has decided to pay a special dividend in addition to its ordinary dividend as a means of sharing the benefits of its growth and achievements with shareholders.

Accordingly, the year-end dividend for the fiscal year ending March 31, 2027, which had previously been undetermined, will be 46.00 yen per share, consisting of an ordinary dividend of 24.00 yen and a special dividend of 22.00 yen.

The Company will continue to actively pursue investments that contribute to improving service quality, including human resource development, as well as growth investments such as M&A, with the aim of achieving further business growth and enhancing corporate value. At the same time, supported by steady earnings growth and improved cash generation capabilities, the Company will seek to strike an appropriate balance between growth investments and shareholder returns, while further enhancing shareholder returns from a medium- to long-term perspective.

2. Revision

	Annual dividends per share	
	Fiscal year-end	Total
Previous forecast (Released on May 14, 2026)	Yen To be determined	Yen To be determined
